### OUR EXPERTISE FOR YOUR PROTECTION

Our proactivity and our professionalism at your service

#### ✔ **PREVENTION**

Prevention is an essential element of our work, basing our strategy on analysis of the risks linked to the specificity of each customer.

Our approach Thus, it is important to evaluate and manage risks. these risks correspond to the threats and threats increase vulnerabilities.

(risk = threat X vulnerability).

Our objective will therefore be to identify, to understand and minimize the risks.

#### ✔ **STRATEGY**

Being aware of the challenges of Safety related reality we work out procedures professional adapted to each situation that allow for a mediate and proportional reaction at risk.

#### ✔ **MEANS**

The concretion of a good security will thus be the fruit of a good prevention followed by a good «tailor-made» strategy for each customer. these means are both The European Union has a responsibility to ensure that the European Union is able to respond to these challenges. we will put a special emphasis on the quality of staff, The European Union has a great deal to say.
